

ERP

- Please revise the order for the Menu: Dashboard>Client List>Work Request>Billing>Disbursement>Transmittal>Reports>Admin
- Please move the save/edit/cancel options above. Maybe right side in line with the description/menu
- It is not allowed to save anything if there is a blank portion. Must fill out all details
- All changes/input made by staff will be for Admin Review

DASHBOARD

- add portion for
 1. upcoming disbursements
 2. work request that will be due for the week

CLIENTS

- revise "Name" to "Taxpayer"
- revise "Contact" to "Point of Contact" – employee will be assigned as point of contact for the client
- add column for Trade Name, Address, Related Companies (some clients have more than 1 company, would like to note of the relation), Contact Details

WORKFLOW

- Rename as OPERATIONS
- Aside from those currently available filter options, please add Priority, Employees, Clients, Due Date
- Please add view in Table format, Board format, List format
- When adding Work Request, please make Priority Drop Down Menu with choices of Urgent, Priority, Low Priority
- Please add portion where you can upload document per task
- For the hours, please put from-to, we need to know the exact time they performed the task, not just the duration of the task
- Please allow uploading of documents per task
- Please connect a billing, disbursement and transmittal to Work Request
- Is it possible to add tracking for original documents? Our current process one employee will either get docs from client/process in respective agency then will give original documents to Documentations who will scan said document. After scanning, other members of Documentation Dept will insert to client envelope for safekeeping.

BILLING

- Please remove vat options. All the billings will be vat excluded, but no need to specify that as that is what our clients are used to
- Can we have generate a PDF from the saved invoices?
- Can we generate a billing but in a form of voucher? No need to indicate company details
- Aside from those currently available filter options, please add Work Request, Clients, Employee, Due Date
- Please add view in Table format, Board format, List format
- Please add who made the billing, and who collected the payment
- Please also include payment details
- Please add template and recurring billing

DISBURSEMENT

- Please remove vat options
- Can we have generate a PDF from the saved disbursements?
- Can we generate a disbursement but in a form of voucher? No need to indicate company details
- Aside from those currently available filter options, please add Work Request, Clients, Employee, Due Date
- Please add view in Table format, Board format, List format
- Please add who made the request for disbursement, and who will handle the payment
- Please also include payment details
- Please add template and recurring

DOCUMENT

- Can Admin add a comment if example the file is incomplete/blurry
- Aside from those currently available filter options, please add Work Request, Clients, Employee, Due Date
- Please add view in Table format, Board format, List format

REPORTS

- Aside from those currently available filter options, please add Work Request, Clients, Employee, Due Date – basically to check the schedules and task completion per day/week/month of employees. Current process is they submit daily report with time of their tasks daily. They also submit monthly list of pending, aside from the recurring tasks

- Please add view in Table format, Board format, List format

USERS

- Please remove the departments
